3M™ RelyX™ Universal
Resin Cement

Goodbye
complexity.

The two that can do it all.

3M™ RelyX™ Universal Resin Cement works both as a standalone, self-adhesive cement and as an adhesive cement when combined with **3M™ Scotchbond™ Universal Plus Adhesive**.

Together they eliminate the hassle and confusion of multiple resin cements, primers and adhesives, **simplifying your direct and indirect restorative workflows**. With fewer products to stock and replenish, you save space, time and money.

So simple yet so powerful.

- Two components for virtually all indirect and direct bonding indications
- Outstanding self-adhesion of RelyX Universal Resin Cement
- Scotchbond Universal Plus Adhesive further enhances bond strength to all substrates
- Unique 3M automix syringe
- Easy excess clean-up
- High esthetics

Game-changing syringe.

Proprietary 3M design takes automix cement applications to the next level. Developed with your needs in mind for easy dispensing, cleaning and storage. The small, low-waste 3.4g syringe provides enough material for around 15 applications.

Easy excess clean-up.

Efficient to the last step. Its unique chemistry ensures excess outflow stays put at the restoration margins, and can be easily removed after tack curing.

Less stock, more savings

95% of dentists agreed the universal character of RelyX Universal Resin Cement helps to **reduce stock and save costs**.

Easier for operatory staff

97% of dentists agreed using one universal versus multiple resin cements is **easier for operatory staff**.

The strong partner for adhesive cases.

3M™ Scotchbond™ Universal Plus Adhesive is the first radiopaque, all-in-one universal adhesive for all direct and indirect bonding indications. And, it is a fully aligned system: the adhesive is cured by the cement, so no light-cure is needed.

Scotchbond Universal Plus Adhesive serves as universal primer for all materials including glass ceramics and further boosts the cement's excellent self-adhesive bond e.g. to zirconia.

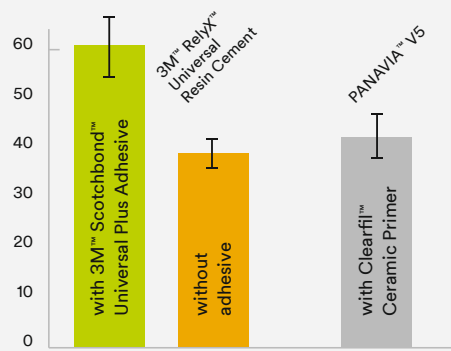

Outstanding self-adhesion for maximized efficiency.

With its superior self-adhesive bond strength to dentin, RelyX Universal Resin Cement reliably treats most cases with no need for an additional adhesive or primer. For light- or self-cure.
